

TEXAS STATE BOARD REPORT

TEXAS STATE BOARD OF PUBLIC ACCOUNTANCY, AUSTIN, TEXAS

State Board Update: Legislation, Rules Changes

The 80th Texas Legislature, which met in Austin this spring, passed two pieces of legislation that created changes to the Public Accountancy Act. The first, House Bill 1316, extended the exemption from professional fees for some government employees to any Texas-licensed CPA employed by the government of another state or by a municipal or county government in this state “who is restricted by virtue of that employment from engaging in the practice of public accountancy outside the scope of employment.”

The second, House Bill 2144, facilitates mobility of CPAs between states or jurisdictions by eliminating the need for out-of-state CPAs practicing in Texas but not performing audits to give notice and register with the Board. The bill also reduced the reinstatement fee for a Texas licensee who has been practicing in another state and who wishes to return to Texas.

Copies of the Act reflecting these changes will be available at a future date. The Board is also undergoing its rules review, conducted every four years to assure that all rules are consistent with the Act and with each other. A link on the Board’s website, www.tsbpa.state.tx.us, takes you to the Secretary of State’s website, where the most current version of the Act and Rules can be found.

Online Renewals. The option to renew licenses online became available in May and about 20% of those whose licenses came up for renewal between May and July have taken advantage of this option. By renewing online, licensees provide all the information the Board asks for on the paper forms, including CPE reporting, but the online process eliminates the need for filling out and mailing hard copies to the Board. There is no additional charge for using the online service.

Peer Assistance. The Board has enhanced its support of the Accountants Confidential Assistance Network (ACAN), a peer assistance program for CPAs, candidates, and accounting students funded by the Texas Society of CPAs and the Board. With the hiring of a full-time director, **Ken Laney**, ACAN has greatly expanded its effort to reach out to those who suspect they have a problem with substance abuse or mental health issues. At its July 19 meeting, the Board proposed for public comment Board Rule 502.1 to address peer assistance. “This is not intended to be punitive,” says Executive Director **William Treacy**. “We are trying to reach out and offer help before there is a full-blown problem.” All communication between a client and ACAN remains confidential. The language of the proposed rule follows:

[PROPOSED] RULE §502.1 Peer Assistance to Licensees

- (a) The Board adopts the provisions contained in the HEALTH & SAFETY CODE, Chapter 467, PEER ASSISTANCE PROGRAMS, in its entirety, including any amendments enacted by the Texas Legislature.
- (b) Should the Board receive information regarding a licensee indicating possible substance abuse or other mental health issue, the board may, in addition to any other action:
- (1) refer the licensee to an approved peer assistance program; or
 - (2) require the licensee to participate in or complete a course of treatment or rehabilitation.
- (c) An approved peer assistance program that receives a report or referral under Subsection (b) of this section or a report under Section 467.005(a) of the Health and Safety Code, may intervene to assist the licensee to obtain and complete a course of treatment and rehabilitation.

Examination. The performance of Texas exam candidates continues to improve and to top national averages. Texas candidates scored an average of 56.1% on all sections of the exam during the April-May 2007 testing window (AUD, 55.3%; BEC, 53.1%; FAR, 59.0%; and REG, 57.0%). The number of candidates is also rising: In 2006, 2421 filed applications of intent with the Board compared to 2023 in 2004. Applications of intent are the first documents future exam candidates file. Eligibility applications, filed for each section of the exam a candidate wishes to take, rose from 6103 in 2004 to 10,150 in 2006. Figures for 2007 are running at about 4% higher than last year. About 80% of eligibility applications are being filed online.
